PROFESSIONAL SUMMARY

Passionate Java Full Stack Developer specializing in building scalable, high-quality applications using Java, Spring Boot, Hibernate, and modern frontend technologies like React.js, JavaScript, HTML, and CSS. Highly focused on hands-on coding, problem-solving, and delivering clean, efficient solutions that meet business needs.

EDUCATION

Bachelor of Computer Science (B.SC) – 2024 | Grade A

Anna Saheb Magar Mahavidyalaya, Savitribai Phule Pune University

TECHNICAL SKILLS

Backend: Core-Java, J2EE, JDBC, JSP, Servlet, Hibernate, REST API, PHP

Frameworks: Spring, Spring-Boot, Laravel,

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js,

Database: MySQL, SQL, MongoDB, phpMyAdmin, data processing

Tools & Platforms: GitHub, Eclipse, Visual Studio Code

Concepts: OOP, MVC Architecture, Agile Development, AI tools use, adapt quickly

Soft Skills: Problem-Solving, Time Management, Communication, Team Collaboration

PROFESSIONAL EXPERIENCE

Jr Software Developer Intern

Winners IT Solutions, Pune | **Sep 2023 – Mar 2024**

Website: <https://winnersitsolutions.com/>

- Developed and maintained **dynamic web pages** using **HTML, CSS, and JavaScript** to enhance user interaction and responsiveness
- Implemented **backend functionality with PHP**, ensuring smooth data flow between client and server.
- Designed and managed **databases using phpMyAdmin (MySQL)** for secure data storage and retrieval
- Worked on **CRUD operations (Create, Read, Update, Delete)** to handle user and application data effectively.
- Collaborated with the team to debug and optimize code, improving **application performance and efficiency**

PROJECTS

Jewellery Management System (Core Java, JDBC, MySQL)

- Built a console-based inventory and customer management system for a jewellery store.
- Implemented **role-based login**, product categorization (Gold, Silver, Diamond)
- Applied **OOP principles** for modular and scalable development.
- Improved business operations efficiency by **30%** and reduced billing errors.

Online Examination System (HTML, CSS, JavaScript, JSP, Servlets, MySQL)

- Developed a secure online examination portal with **role-based authentication** for students and admins.
- Integrated **auto-evaluation logic** for instant results and analytics.
- Enhanced security with **session management and input validation**.
- Reduced manual result evaluation time by **40%**.

CERTIFICATIONS

- Java Full Stack Developer** – QSpiders/JSpiders/PySpiders, Pune
- Python 101 for Data Science** – IBM via CognitiveClass.ai
- Internship Completion Certificate** -- PHP & Web Technologies
